Hello Shreejata,

As discussed during our previous call, you informed us that you would opt for placement assistance after completing your university course. However, we have not received any confirmation or communication from you to date. Additionally, you have been unreachable despite multiple attempts to contact you by phone.

Given the above, we are closing your placement assistance for now.

If you wish to resume the placement assistance process in the future, please reach out to the Student Relationship team for further support.

Hello Shreejata,

If you could kindly confirm the reasons of your delay in sending the reasons for no placement requirement

Thanks and Regards,

Hi Shreejata,

We have attempted to reach you multiple times; however, we were unable to connect with you.

We would like to understand whether you wish to continue with placement support from our end. Please note that your profile has already been shared with three organizations, but neither the respective HR teams nor our placement team has been able to reach you via calls.

While we understand that you may have been occupied, it is important for us to stay updated on your availability and interest to proceed further. Without timely communication from your end, it becomes difficult for us to move ahead or share your profile with additional organizations.

We request you to kindly update us on your current status at the earliest so that we can plan the next steps accordingly.

Also, to inform you, we have planned for MOCK interviews for all students of Karmick Institute, so we request you to stay available to our calls so that we can pass on the date information to you.
