Hello Paramita,

We hope you are doing well.

We have not heard from you for quite some time. Our team has tried connecting with you multiple times; however, we have not received any response. Additionally, you did not appear for the final certification test as scheduled.

In view of the above, we are proceeding to **close your profile for placement assistance.**

In case you wish to continue with the Institute's process in the future, please feel free to connect with the Student Relationship team for further guidance.

In case you do not intend to proceed further, a formal declaration form will be shared with you on this note, which we request you to duly acknowledge and submit for our records.
