Dear sir,

Today I received a mail from your end, mentioning the scheduled date and time for mock interview but, we have completed 17 classes till now and did not yet complete half of the syllabus or total number of modules. It won't be of any use if we attend mock interviews without any kind of preparing. Therefore, I request you to pause the ongoing mock interview process and give us atleast 2 months to complete major topics from the module and then you can schedule mock interviews.

Regards

Shreya Naskar

Hello Shreya,

We understand your concern regarding the syllabus completion before the mock interview. We will check on the schedule and get back to you regarding the possibility of rescheduling.

Best regards
